Small enough to care : Big enough to deliver

COMPANY BRIEF

We are a leading manufacturer of custom built low voltage switch-gears in India. We are also the SYSTEM HOUSE for SIEMENS for both FIXED as well as DRAWOUT types of switchgears. We have been striving to be performing with a commitment to excellence since 1990. The company has established itself as a benchmark of quality and perfection.

Our manufacturing facilities at Indore and Bhopal are equipped with state-of-the-art modern machinery. With the best of talent, a profound knowledge base and a CAD centre with empowered with latest software and tools, we have been able to position ourselves as a preferred solution provider by our valued customers.

Our strength lies in our expertise and experience which in turn help us in providing solutions for a wide spectrum of customer needs and our commitment to deliver excellence in customer service. Enterprise wide commitment to excellence has led to us growing at an outstanding rate of 80% to 100 % Since 2006.

UNIVERSAL TRANSFORMER earnestly & continuously strives to achieve excellence not only in its operations but also in the arena of **Corporate Citizenship**. we have deep respect for social values and human ethos. The company is committed to improve the quality of life of its employees and provide them a safe and healthy work environment.
